

HOW TO BE LEGEN-DAIRY IN CYBER SECURITY

HOW TO MAKE
STRONG
PASSWORDS

HOW TO MAKE STRONG PASSWORDS:

- Use at least 8 characters for passwords, with a variety of symbols, numbers, and capitalization
- One easy way to make a password is to tell a story. Maybe you adopted Fluffy (Flu) from the shelter (#) Christmas (Mas) in 2022. Make your password: Flu#mas22
- Another strategy is to replace letters with similar looking symbols. For example: 22F!uffy
